BACHELOR OF ARCHITECTURE

5 YEARS FULL TIME PROGRAM - INTAKE 80

Approved by COA, DTE and Affiliated to SPPU

- The curriculum at MET School of Architecture & ID is a journey through the interconnected matrix of three primary streams such as Culture, Context and Skill-sets through which the design evolves as a response. The complexity, width and depth of each stream is progressive across the five years of curriculum. The syllabus for Bachelor of Architecture Course is as per SPPU guidelines. The interpretation and implementation of syllabus is to create able Architects who would have a vision for National and International Architectural needs.
- The faculty at MET's SOA & ID is highly experienced in academic and professional practice.
- The institute has senior professionals as core and visiting faculty, which is geared to make our students practice ready after graduation.
- The INTACH Heritage Awards programme for Excellence in Documentation of Unprotected Heritage Structures in India. 3rd & 4th Year B. Arch. Students' won Commendation Award - Central Zone 2023.
- Padma Vibhushan B.V. Doshi Gold Medal Award 2023-Darpan Adhoo (B.Arch.) given by "Architects And Engineer's Association, Nashik" (A&E, Nashik)

BACHELOR OF DESIGN

4 YEARS FULL TIME PROGRAM - INTAKE 60

Approved by Govt. of Maharashtra and Affiliated to SPPU

The Bachelor of design is a four year degree course with specialization in different design stream such as Product Design, Interior Design and Set Design. This professional education programme starts with a one year common foundation of design basics. Students then have an option of choosing any of the three disciplines offered from second year onwards.

Eligibility: 10+2 in any stream or 10+MSBTE/DTE approved diploma.

COURSES OFFERED

Product Design:

Product design is a focussed discipline under the larger gamut of Industrial Design. This branch caters to consumer products, lifestyle products, their manufacturing processes and systems. Product design can be defined as the idea generation, concept development, testing and manufacturing of a physical object.

Interior Design:

This design discipline deals with the articulation of interior environment. This branch of design includes the designing of interior space by the manipulation of spatial volume along with the functional, visual and cultural aspects of the interior space.

Set Design:

A relatively new and unique branch of design, the aim of this course is to create professionals to serve the ever expanding field of set design including television, motion pictures, theatre, virtual sets etc. The set design syllabus is designed for the in depth study and understanding of the skills, materials, design themes and styles used by designers.
