The HOI/HOD submits the draft advertisement through HR for Trustee approval. The recruitment process involves posting the job, advertising through various channels, receiving and screening applications, interviewing candidates, checking references, obtaining Director's approval through Trustee interviews, and final acceptance. Selection emphasizes evaluating qualifications, experience, past performance, educational background, and abilities. Post-recruitment, there's an induction program for new appointees, including a checklist of joining formalities such as welcome notes, introductions, completion of documentation, issuing of letters and identification materials.

SERVICE RULES AND PROCEDURES

MET-BKC prioritizes a disciplined work environment, stressing punctuality and attendance. Employees must sign the attendance register after RFID/Biometric system monitored by the HR department. Biometric scanning tool is used to maintain admin staff and faculty attendance. Leave policies cover earned, casual, sick, and maternity leaves. Disciplinary rules emphasize professional behaviour, electronic device usage, and workplace norms. Dear madam/ Sir

As per the earlier discussion and proposal, we want to start new courses under B.Des. Regarding this we sent a letter to the board of studies at SPPU in April of this year. This is with the understanding that the BOS will develop syllabus for the same. On July 22 we were requested to develop our own syllabus for the said courses and send them for perusal and approval to BOS. Our team with a lot of discussion and deliberation could come up with a broad outline of the syllabus which we have mailed them by the end of July 22. I have personally called up Dr Devdulla, BOS chairman for B.Des to apprise him of the same.

He has requested for more details regarding aligning of the course. After deliberating for almost a month now, the team is of the opinion that to go ahead with developing the syllabus we shall need to form a committee of experts for input from both industry and academics.

I request you to please guide us in this regard

Dear Ma'am,

As mentioned in the subject line, there's a dire need of dedicated non-teaching staff for B.Des. examination section and other administrative work.

There is a lot of formal communication to be done with SPPU throughout the academic year, apart from the examination time, which becomes very crucial and important.

At this point, there's only one person- Mr. Sachin Kathe, who takes care of all the admin, examination and infrastructure requirements of B.Des. We also need more peons for miscellaneous work and a submission in-charge, at the time of submissions. Because of this situation, the teaching/core staff ends up doing a lot of admin work (apart from the basic/assigned admin work) and it becomes very difficult to juggle it with academics.

Humble request to look into the matter and do the needful.

Regards,
Nishtha Karkhanis

A. Pilot Survey & Orientation – 3rd January, 2024

An introductory presentation about Nashik's biodiversity and a biodiversity mapping session took place on January 3rd. The chosen students received a briefing on the fundamentals of conducting field-based biodiversity mapping. Subsequently, they participated in a pilot survey outdoors. They were instructed to download citizen science applications such as iNaturalist, eBird, and Merlin, and were asked to create individual accounts as well as a collective campus account. These applications will be utilized for forthcoming surveys. 3 Transects were marked during the pilot surveys (refer to above picture). Students are asked to divide themselves in groups and each group will take up responsibilities like data collection, data documentation using photography, data compilation on Excel sheets, etc.

B. Seasonal surveys-

As per our discussion we have two surveys lined up for winter and summer

Winter surveys will be conducted on 16th January, 2024. The survey will start sharp at 7 am, where we will survey 3 transects for flora and fauna.

On the same day after the field survey we will gather in a classroom for data accumulation and prepare a seasonal report. The same step will be repeated for summer and monsoon seasonal survey.

Subject: Collaboration on research writing and conservation of stepwells with Ar. Kalpana Ramesh

Respected Ma'am,

As per our previous conversations, our institute has been in touch with Ar. Kalpana Ramesh of Hyderabad to discuss a collaboration. Under this collaboration, we would like to understand, study, and publish research focused on the stepwells in and around Nashik and Hyderabad.

Ar. Kalpana Ramesh has been instrumental in the conservation of stepwells in and around Hyderabad. She is a known figure in the architectural conservation circles and is an expert in restoring stepwells. She has considerable experience and her projects have highlighted community engagement with historical contexts. We would benefit from her engagement with us and we would like to host her at our institute tentatively from the 24th to the 26th of January 2024. Her engagement will also help students gain expertise in documenting 2 stepwells in Nashik. We are also collaborating with Ar. Sanjay Patil Sir and the Directorate of Archaeology and museums, Maharashtra. She will also deliver a talk at the institute during her visit.

Similarly, Kalpana has invited you and I to Hyderabad from the 12th to the 15th of January 2024. During our visit, we will study two stepwells that she has restored. We will eventually collaborate to write for her and help her publish her work on the stepwells. We will be hosted by her during our visit and similarly we shall host her during her visit.

This initiative is being undertaken under our newly established research and design cell. The cell shall undertake such activities for the dissemination of knowledge and shall collaborate for research related activities.

Looking forward to hearing from you to proceed accordingly.

Thank You

Testimonial

Subject: Acknowledgement for editorial work on the structural remains at Vadnagar, archaeological findings, and monograph.

This is to certify that Mr Yakin Ajay Kinger (Asst. Prof. MET SOA & ID, Nashik) has undertaken tasks of editing and proofreading from March to September 2023 for the Archaeological Survey of India (ASI). He edited the texts for more than 90 structures, archaeological findings including objects and artefacts, and undertook line editing and proofreading for a monograph titled "2500 Years of Vadnagar: A glimpse through the excavations". The monograph is about 27,000 words long and is to be published by the Archaeological Survey of India.

Vadnagar is a UNESCO-nominated heritage site in India and one of the country's oldest continuously inhabited settlements. While finalizing the report writing, his suggestions for improving the structural remains and flow of the texts were very insightful and effective. His editorial work not only improved the readability of the text but also helped rectify the information and present it in a well-structured way. He is able to execute the work under tight deadlines. We are collaborating with him for further editorial work. He is also assisting to curate a digital heritage walk for visitors to the archaeological excavation site at Vadnagar. We would like to thank him for his services and would recommend him for editorial work in the fields of history, archaeology, and architecture.

Respected Sir,
Greetings of the day

I am thankful for the appointment as Assistant Professor in B.Des department of MET SoA and ID. I accept the offer made by you and the organisation for the academic year 2022 - 2023. I shall continue with the role and responsibilities assigned to me at my level best.

My only concern is the pay scale/ remuneration linked with the offered salary, it is less than the offer requested from my side during the interview.

I have been attached with the institute since the last semester as a visiting faculty. Considering my academic qualifications (B.Des and M.Voc) and expertise, I would appreciate if the same would be taken into consideration.

My experience with the institute so far has been enriching and I hope for the same in the coming years.

Thanking you
Yours sincerely
Jotikaa Lakhani
